Professional Summary

Full-stack developer and Business Information Systems graduate with hands-on experience across the **software development lifecycle**, from business requirements gathering and stakeholder coordination to system design, development, testing, and deployment.

Experienced in translating business processes into practical software solutions, coordinating with non-technical stakeholders, and developing database-driven applications and workflow automation systems. Strong background in full-stack development, business analysis, REST APIs, database design, testing, debugging, and AI-assisted development.

Experience

Oct 2025 – May 2026

Richwell Colleges Incorporated – *Project Manager & Full-Stack Software Developer Intern*

- Coordinated with **Admissions, Registrar, and other stakeholders** to understand existing processes, gather information, and identify business and system requirements.
- Conducted **business requirements gathering and analysis**, translating organizational workflows into functional system requirements.
- Participated in an **Agile/Scrum-based development process** covering requirements and data gathering, planning, development, testing, and refinement.
- Analyzed existing business workflows and identified opportunities for **digitization, automation, and process improvement**.
- Served as a bridge between stakeholders and developers by clarifying requirements, resolving conflicting needs, and defining expected system behavior.
- Helped plan and coordinate development activities, including module direction, technical tasks, and development progress.
- Designed and developed full-stack modules covering **admissions, enrollment, scheduling, faculty management, and other academic workflows**.
- Designed database schemas, data flows, authentication, authorization, application architecture, and REST API integrations.
- Reviewed code commits and pull requests before integration into the main repository to maintain code quality and consistency.
- Conducted functional testing, debugging, API validation, and issue investigation, incorporating stakeholder feedback into system improvements.

Development Approach: Agile / Scrum

Technologies: React.js, Tailwind CSS, Python, Django, MySQL, REST APIs, Git, Postman

2023 – 2026

Malikhain Digital Solutions – *Freelance Full-Stack Developer & Project Coordinator*

- Develop customized software and digital solutions for businesses, organizations, and academic projects.

- Work directly with clients to gather requirements, understand business processes, identify pain points, and define project objectives.
- Translate business requirements into **system workflows, database structures, technical specifications, and functional applications.**
- Design and develop full-stack systems for **sales, inventory, academic management, business operations, and workflow automation.**
- Develop and integrate APIs, databases, authentication systems, third-party services, and automation workflows.
- Coordinate project requirements, development progress, client feedback, testing, and implementation.
- Design user interfaces and refine system workflows based on actual user and client requirements.
- Automate repetitive processes to reduce manual work and improve operational efficiency.
- Handle projects across the development lifecycle, from **requirements gathering and planning to development, testing, deployment, and maintenance.**

Technologies: React, Next.js, TypeScript, JavaScript, PHP, Laravel, Python, Django, SQL, Supabase, Firebase, n8n, OpenAI API, Groq API, Stripe API, Expo

2022 – 2023

Lexie Staffing and Business Consulting – *Recruitment Associate*

- Supported recruitment activities including job posting, candidate screening, interview coordination, and applicant communication.
- Maintained candidate records and recruitment information using an Applicant Tracking System (ATS).
- Prepared recruitment, offer, onboarding, and administrative documentation.
- Coordinated with candidates and internal stakeholders throughout the recruitment process.
- Generated recruitment reports and metrics to support HR and management decisions.

Education

2022 - 2026

Richwell Colleges Incorporated – *Bachelor of Science in Information Systems*

1.6 GWA

2020 - 2022

Felizardo C. Lipana National High School – *Senior High School – STEM*

With honors

CORE SKILLS

- **Frontend:** React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
- **Backend:** Python, Django, PHP, Laravel, Express.js, C#, ASP.NET, REST APIs
- **Databases:** MySQL, PostgreSQL, MongoDB, Supabase, Firebase
- **Software & Systems:** Full-Stack Development, Business Analysis, Requirements Gathering, Database Design, System Architecture, API Integration, Authentication & Authorization, Testing & Debugging, Workflow Automation
- **Project & Business:** Agile / Scrum, Stakeholder Coordination, Requirements Analysis, Technical Planning, Task Coordination, Code Review, Process Improvement

- **AI & Emerging Technology:** AI-Assisted Development, AI/API Integration, RAG, Rapid Prototyping, AI Coding Tools
- **Tools & Deployment:** Git, GitHub, Postman, Vercel, Render

PROJECT EXPERIENCE

Academic Compliance and Audit Portal

Project Coordination • Documentation • Workflow Management

Developed a centralized system for managing OJT documentation, compliance records, and audit processes. Worked with project requirements and organized information to support the project's workflow.

Automation Pick-up Service

Workflow • Coordination • Process Improvement

Created a system that organized service requests, application data, notifications, and tracking processes to reduce repetitive manual coordination.

RFID IoT Membership Scanner

Information Management • Automation

Developed a membership check-in system with offline data handling, cloud synchronization, and automated notifications.

LEADERSHIP & ACHIEVEMENTS

- **3rd Place – Hackathon Competition**
Team Adobong Palaka, BSIS Week 2026 – March 2026
- **Vice President – CODE IS**
Programming Club, Creative Organization of Digital Explorers in Information Systems – 2025
- **Research Presenter**
1st Computing, ICT, and Emerging Technologies Research Colloquium, Richwell Colleges Incorporated – June 2026
- **3rd Place – Chess Tournament**
BSIS Week 2026 – March 2026
