Objective

Full-stack developer with hands-on experience developing web applications, database-driven systems, and business workflow solutions. Experienced in frontend and backend development, database design, REST API integration, testing, debugging, and system architecture. Able to translate requirements into practical software solutions and adapt to new technologies and development environments.

Experience

- Richwell Colleges Incorporated** Oct 2025 - May 2026
Full Stack Software Developer Intern
 - Developed and maintained full-stack applications based on project requirements and stakeholder feedback.
 - Designed database schemas, data flows, and application architecture for system features.
 - Contributed to technology selection and implementation decisions throughout development.
 - Developed and integrated frontend, backend, and API components for business and academic workflows.
 - Tested, debugged, and refined applications to improve correctness, usability, and reliability.
 - Built automation workflows to reduce repetitive organizational processes.
 - Maintained and upgraded deployed software based on user feedback and changing requirements.
- Self Employed Freelance** 2023 - 2026
Software Developer
 - Developed customized software solutions for sales, inventory, academic, and business workflows.
 - Translated client and project requirements into functional full-stack applications.
 - Designed database structures and application logic based on project requirements.
 - Developed and refined user interfaces and workflows based on stakeholder feedback.
 - Integrated APIs and automation tools to improve business processes and reduce manual work.
- Lexie Staffing and Business Consulting** 2022 - 2023
Recruitment Associates
 - Supported end-to-end recruitment, including job posting, candidate screening, and interview coordination.
 - Maintained candidate records and information using an ATS.
 - Prepared recruitment, offer, and onboarding documentation.
 - Generated recruitment reports and metrics for HR decision-making.

Education

- Richwell colleges Incorporated** 2022 - 2026
Bachelor of Science in Information Systems
1.6 GWA
- Felizardo C Lipana National High School** 2020 - 2022
Senior High (STEM)
With Honor

Skills

- Frontend: React, TypeScript, JavaScript, Next.js, HTML, CSS, Tailwind CSS
- Backend: Python, Django, PHP, Laravel, Express.js, C#, ASP.NET, REST APIs
- Databases: MySQL, PostgreSQL, MongoDB, Supabase, Firebase
- Software Development: Database Design, API Integration, System Architecture, Testing & Debugging, Workflow Automation
- AI-Assisted Development: Rapid Prototyping, AI Coding Tools, RAG, AI/API Integration
- Tools & Deployment: Git, GitHub, Vercel, Render

Projects

- **Academic Compliance and Audit Portal**
• Full-Stack • Database • Workflow System
Built a centralized academic workflow system for managing OJT documentation, compliance records, and audit processes.
- **Automation Pick-up Service**
• Full-Stack • Automation • API Integration
Automated a service-request workflow by integrating application data, Google Sheets, and notifications, reducing repetitive manual tracking and coordination.
- **RFID IoT Membership Scanner**
• ESP32 • C++ • Supabase • n8n
Built an RFID-based membership check-in system with offline queue support, cloud synchronization, and automated notifications.
- **TagForge**
• Next.js • React • AI • Stripe
Built an AI-powered SEO platform that automates metadata generation and content optimization.
- **Tropang AI**
• RAG • AI • Document Processing
Built a RAG-based assistant that converts PDF and organizational documents into a searchable AI knowledge base.

Achievements & Awards

- 3rd place - Hackathon Competition Team Adobong Palaka, BSIS Week 2026 , march 2026
- Vice president - CODE IS, Programming Club Creative organization of digital explorers in information systems 2025
- Research Presenter - 1st Computing, ICT , and Emerging Technologies Research Colloquium Richwell colleges inc. June 2026
- 3rd place - Chess, BSIS Tournament BSIS Week 2026 March 2026
